This performance and development opportunity will be used as an enhancement tool to help push the level of performance and skill acquisition in skaters of all levels and perform in front of family and friends without the pressure of competition. We will also have fun doing it! All skaters will receive constructive feedback to help prepare for their future goals. You may also be tested at the same time your program is being evaluated.

This is how it works:

1. Indicate your package or event.
2. Tell us your level.
3. Choose any creative opportunities or fun events to add to your weekend.
4. Start planning for a great weekend!
